

UNCDF ENERGY ACCESS WORK

As part of its strategy Leaving No One Behind in the Digital Era, UNCDF's energy access work also known as CleanStart co-invests in early stage business ideas that can have a positive ripple effect in the way customers buy and use modern energy.

OUR LONG TERM **VISION**

To dramatically scale up energy financing for the poor through a market based approach that builds on:

- validated financing business models
- commercialization of technologies and services that offer value to low-income consumers
- new learning about the energy access market, in particular consumers, through research and knowledge exchanges between market actors
- network of technical experts experienced in supporting energy access market development
- advocacy for market-wide changes, such as policies and standards

Unlocking Public and Private
Finance for the Poor

OUR **RESULTS** SO FAR

3.1 MILLION PEOPLE

now benefiting from clean energy solutions.

This means financial and time savings, health benefits, and increased productive activity.

1.2 MILLION TONS

of Co2 emissions offset from the transition of clean energy solutions.

500,000 tons

of wood energy saved.
